Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the City of Bunnell, Florida Section 5061 Wastewater Environmental Infrastructure project in fiscal year 2025. The entity to receive funding for this project is the U.S. Army Corps of Engineers. This is an appropriate use of taxpayer dollars because it will update and modernize Bunnell's dilapidated wastewater infrastructure system and facility. The U.S. Army Corps of Engineers has already invested resources in this project by completing the initial planning, design, and permitting phase.

The project has a federal nexus because the funding provided is for purposes authorized by the Water and Resources and Development Act, 2007: Section 5061 East Central and Northeast Florida Environmental Infrastructure (Public Law 110-114).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Michael Waltz  
Member of Congress
